Review cycle	Annual or upon material process change
Prepared for	SSG Organisation Registration application

1. Governance and Organisation

Skills Union Pte Ltd will maintain clear accountability for SSG-funded course administration, learner support, assessment integrity, finance, records management and continuous improvement.

Role	Key responsibilities
Key Person-In-Charge	Overall compliance with SSG terms, approval of course information, oversight of audit responses and management reviews.
Management Representative	Day-to-day monitoring of course administration, learner communications, trainer deployment and document control.
Course Administrator	Enrolment, course confirmation, attendance, assessment records, claims support and trainee communications.
Trainer / Assessor	Lesson delivery, assessment conduct, learner support, feedback collection and post-course review

	input.
Finance Representative	Fee collection, invoice records, refund processing, financial reconciliation and supporting evidence retention.

2. Course Information and Learner Communication

Published course information must be accurate, approved and consistent across website, brochure, registration form and confirmation emails.

1. Course Administrator drafts or updates course information using the approved course factsheet.
2. Management Representative checks course title, duration, mode, objectives, fees, funding information, trainers, facilities and completion criteria.
3. Key Person-In-Charge approves release before publication or learner circulation.
4. All approved versions are stored in a controlled folder with version date and owner.

Required Course Disclosures

- Course title, training duration, fees and funding validity period.
- Modes of training and assessment.
- Course objectives and intended learning outcomes.
- Senior management staff and trainer names.
- Organisation structure and facilities/equipment used for training.
- No SSG or SkillsFuture logos are used in marketing materials unless expressly permitted.

3. Registration, Course Confirmation and Advisory

Learner registration records must show the registered course title, commencement and end dates, funding to be applied and balance fees payable by learners.

Process step	Control
Pre-course advisory	Confirm course fit, prerequisites, funding conditions, attendance and assessment requirements before enrolment.
Registration	Collect learner particulars, company billing details where applicable, declaration and consent.
Course confirmation	Issue confirmation with course schedule, venue/login details, trainer, materials, attendance criteria and support contact.
Changes and withdrawals	Record requests, communicate options and apply refund or deferment rules consistently.
Appeals	Log appeal, appoint reviewer, respond with outcome and keep evidence of decision.

4. Attendance, Assessment and Records

- Attendance is taken using the approved e-attendance method required for classroom-facilitated training or synchronous e-learning.

- Trainer verifies learner identity before attendance and assessment activities.
- Assessment instruments, answer scripts, assessor decisions and moderation records are retained according to the internal retention schedule.
- Records are stored in access-controlled folders with backup and version control.
- Assessment results are reviewed before submission to TPGateway or other required systems.

Records Register

Record type	Retention / control
Learner registration form	Retain per SSG and internal data retention policy; restrict access to authorised staff.
Attendance record	Retain source record and submission evidence.
Assessment evidence	Retain assessment plan, instruments, learner evidence, marking records and moderation evidence.
Invoices and payment records	Retain issued invoice, receipt, refund record and reconciliation evidence.
Feedback and complaints	Retain feedback forms, analysis, action plan and closure evidence.

5. Trainer Management and Course Quality

5. Verify trainer qualifications, industry experience and ability to deliver the course before appointment.
6. Conduct briefing on course objectives, lesson plan, assessment requirements, attendance controls and learner support procedures.
7. Collect learner feedback and trainer reflection after each run.
8. Review attendance, completion, assessment outcomes and feedback trends during management review.
9. Implement corrective actions where learner outcomes, feedback or audit observations indicate gaps.

6. Finance, Funding and Refund Controls

- Course fees, SkillsFuture Credit and other SSG funding amounts are communicated before registration.
- Invoices and receipts are matched against registration records.
- Refunds, withdrawals and deferments are approved according to published policy.
- Finance records are reconciled and retained as supporting evidence for audit or clarification.
- The organisation will maintain a PayNow account for TPGateway transactions where required.

7. Feedback, Complaints, Requests and Appeals

Channel	Handling standard
General enquiry	Acknowledge within 2 working days and route to the responsible staff member.
Feedback	Log feedback, classify theme, review for improvement action and close with documented outcome.
Complaint	Escalate to Management Representative, investigate evidence, reply with outcome and

	corrective action.
Appeal	Assign an independent reviewer where possible and document final decision.

8. Data Protection and Access Control

- Personal data is collected only for course administration, regulatory submission and learner support purposes.
- Access to learner records is restricted to authorised staff and reviewed when staff roles change.
- Files are stored in controlled folders with clear naming conventions and backups.
- Data incidents are escalated to management for containment, assessment and notification where required.

9. Management Review and Continuous Improvement

Management will review operational performance at least annually and after significant course runs, audit findings or complaints.

Review input	Example measures
Course administration	Enrolment accuracy, confirmation timeliness, attendance submission accuracy.
Learner outcomes	Completion rates, assessment outcomes, learner support cases.
Trainer performance	Learner feedback, trainer observation, assessment quality.
Compliance	Audit findings, SSG clarification trends, document control status.
Improvement actions	Owner, due date, evidence of closure and effectiveness review.

Appendix A: Client Completion Items

- Insert named appointment holders and organisation chart.
- Insert actual course title, registration form, brochure or website mock-up.
- Attach venue evidence, facilities photos and training records.
- Confirm e-attendance method, TMS/LMS platform and document storage location.
- Insert actual refund policy, appeal form and feedback form if already in use.
